

A Brand®

OSG's tooling master class of advanced performance tooling solutions for drilling, milling and threading applications. Elevate your manufacturing endeavors with unsurpassed performance for an extensive range of materials and applications. Quality, reliability, and satisfaction. Bring your A game with OSG's A Brand.

A Brand® AT-1 Advanced Performance "One Pass" Thread Mill

For Carbon Steele, Alloy Steels, Stainless Steels, Hardened Steels up to 45 HRC, Cast Iron & Aluminum.

- OSG's patented EgiAs coating for exceptional wear resistance and longer tool life.
- OSG's newest thread mill, the A Brand AT-1, is designed with a left-hand helix.
- Starts cutting from the shank side, reducing deflection, preventing bending, thus allowing for 1-pass cutting and reducing overall cutting time.
- Right-hand cut and left-hand helix geometry to prevent bending/deflection.

A Brand® A-NPT Advanced Performance Pipe

For Carbon Steele, Alloy Steels, Stainless Steels, Hardened Steels up to 35 HRC, Cast Iron & Aluminum castings.

The A BRAND® A-Pipe Tap is OSG's newest addition to the A Brand line up. With an expansive size offering, the new A Brand® A-Pipe Tap has enhanced cutting geometry with premium V Coating for extended tool life that performs exceptionally in a wide range of materials.

- HSSE material increased wear resistance.

A Brand® ADF Advanced Performance Flat Drills

Intended Materials: For Carbon Steels, Alloy Steels, Stainless Steels, Hardened Steels up to 45 HRC, Cast Iron and Aluminum. Maching a flat hole traditionally required use of an end mill and a drill. The A Brand® ADF enables one-step drilling to simplify machining time and tool management. Suitable for a wide variety of drilling applications and including inclined surfaces, curved surfaces, counterboring, eccentric holes, thin plates, etc.

- EgiAs coating suppresses friction with the wear resistance layer and prevents breakage.
- Wide chip room provides smooth chip evacuation.
- Unique end cut geometry reduces cutting force to enable stable machining.

A Brand® A-SFT Tap

For Carbon Steele, Alloy Steels, Stainless Steels, Hardened Steels up to 35 HRC, Cast Iron & Aluminum.

The A BRAND® A-Tap is an all-purpose tap series designed to simplify tool management and to excel in a wide variety of materials and applications.

- Thread Limit H3
- Sharp Cutting Edge Stabilizes Chip Shape.
- Variable Helix Flute Accelerates chip evacuation
