

## Precision Fixed Limit Thread Gages

Emuge's comprehensive line of thread gages consist of GO / NO-GO plug gages and thread depth plug gages. A Certificate of Accuracy is furnished with each gage.\*

Gages inspect the pitch diameter and functional thread for internal-threaded components.

### Features:

- Exceptionally hardened tool steel and highly accurate
- Full range of inch, metric sizes in coarse, fine, UNC, UNF, UNS, NPT, NPFT, along with Emuge Self-Lock™ threads forms
- Accomodates 2B, 3B, 6H classes of fit
- Stable thread start for easy insertion
- Eliminate thread damage in demanding environments
- Short form Certificate of Accuracy is furnished free with each gage. Long form Certificates are available upon request

Gage certification is performed by accredited calibration service "DECOM UGK GmbH" calibration labratory.
